FEMALE MEDICAL COLLEGE.

A Philadelphia letter writer states that the female medical college in that city is progressing as satisfactorily as any friend to the rights of women could possibly desire; and all that is now wanted to complete the good work is the establishment of a Female Theological Seminary and a Female Law School. If women from the force of circumstances, must work for a livelihood, why should they be debarred from the liberal professions, and compelled to dwell among pots, or to make beds, or to measure out calico, or to work in factories, or to cook, wash, scrub darn and sew? Blessings on Miss Blackwell for the practical idea; a social revolution is about to take place. In less than three years, something less than three hundred lovely and lovable girls, with straw bonnets, low neck dresses, and gutter boots, (if the fashions don't change in the meantime) will be driving about the streets of Philadelphia in their gigs, killing and curing according to the good old orthodox, allopathic system. Woman, lovely woman, is the only proper attendant for the sick-room, and if we are to be bled or phlebotomized to death, let it be done with sweet smiles and gentle hands. With a young, blooming, blushing physician to feel your pulse with her round, tapering fingers, or to put her soft, warm, plump hand on your aching head, who wouldn't be sick? The danger is that Philadelphia will become frightfully unhealthy the moment these bewitching spinsters matriculate.

Another valuable contribution to a ship's furniture has been made by the Rev. E. Berthou, of Fareham, England, in the shape of a perpetual log, which is likely to become not only a favorite, but will hereafter be considered almost an essential to her safety. We propose in an early number to describe it, at present it being before the Royal Society. Unlike Massey's or Walker's, it has no machinery to get out of order, or require repair, and being without the exception of about three inches) all inside the ship, is free from accident. It consists of a small tube in which the pressure of water occasioned by the way of the ship, acting on a column of mercury, indicates the velocity of sailing. The index, which very much resembles in size and appearance a common thermometer, may be fitted to hang in the captain's cabin, or any other part of the ship, being at once ornamental and useful. We understand it is being fitted in H.M.S. Dauntless, and we fully anticipate every ship afloat being hereafter supplied with it. It not only indicates the velocity, but also the lee-way, should the vessel be sailing before the wind; and is highly creditable both to the judgment and good taste of the inventor. [Nautical Magazine.]

ONLY HALF WAY.—The Sultan is willing to make almost any improvements in civilization, provided they do not interfere with the internal arrangements of his seraglio. The old sinner.

A letter from Colotlan, in Mexico, on 23d June last, states that while the cholera was raging at that place, an image of St. Nicholas Tolentino had been observed to shed tears, which were very carefully wiped away with cotton, and this latter was distributed as a precious relic to ladies and others. The people said that after the Saint had shed tears, the doing of which was evidently an act of intercession, the cholera began to diminish in violence, and in a few days had almost entirely disappeared. It is added, that a full and formal account was transmitted of this miracle to the Bishop of Guadalajara, accompanied by all the proofs and attestations, so as to give the relation the dignity of an official act, one not to be contradicted or questioned hereafter. The disappearance of the cholera may be believed without recourse to the intervention of a Saint. As to the miracle, every one can think as he pleases, as folks do about the Rochester Ghost.

Steam to Australasia.—There seems little doubt but that communication by steam will now shortly be established. The London correspondent of the Sydney Herald remarks: "I have heard, and I am strongly inclined to believe, that an intimate tripartite alliance has been formed between the Royal Mail Steam Packet Company, the Pacific Steam Navigation Company, and the New Zealand Company. I have heard that the last will use all its power and influence to get the Central American as the established route. Thus New Zealand would get first served—South Australia last. If you are convinced by the reasoning of those who are in favor of the Panama route, well and good, but it is right you should have a hint that the 'New Zealand interest' is busying itself in the matter, and that the convenience of that settlement will, beyond all doubt, occupy the first consideration."

A military officer being at sea in a dreadful storm, his lady was sitting in the cabin near him, and filled with alarms for the safety of the vessel, was so surprised at his composure and serenity, that she cried out: "My dear, you are not afraid?" "How is it possible you can be so calm in such a dreadful storm?" He arose from his chair, stepped to the deck, supporting himself by a pillar of the bed place, he drew his sword and pointed it to the breast of his wife, and exclaimed: "Are you not afraid?" "She instantly replied, 'No.' " "Why?" said the officer. "Because," rejoined the lady, "I know this sword is in the hand of my husband, and he loves me too well to hurt me."

"Then," said he, "remember, I know in whom I believe, and that He holds the winds in His fists, and the water in the hollow of His hands."

Of all self acknowledged puppets, the young man who speaks lightly of female character and female virtue deserves the highest place in the congregation of moral lepers. There is more certain indication of a weak brain or rotten heart, than the tongue that would disparage a female virtue—which would forget its mother or sister in casting its foul venom upon purity which it can never hope to attain.

Modesty is one of the leading characteristics of great minds. Newton, whose discoveries filled the world, and revolutionized the whole empire of science, was one of the most unassuming of men. The mighty intellect and vast achievements of Laplace only rendered him more conscious of his own ignorance; so true it is that the more men know, the less do they think of themselves.

A Washington correspondent states that the expenses of carrying on the Government of Oregon, exclusive of Indian affairs, is \$3,500.

KLAMATH GOLD MINES, River and Town.—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of competent judges of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing) Sacramento and Stockton. Miners who have, during the last summer expended so much a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the security of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, is one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one-tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of \$1.50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Schultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

IMPORTANT FROM ABOVE!

Excitement in El Dorado County—Threatened Indian Hostilities.

Hawley & Co. furnished us with Sacramento papers of yesterday.

From the Transcript we learn that the Indians have threatened an invasion of El Dorado county. Meetings have been held in Coloma, Weaverville, Placerville, Ringgold, and Diamond Springs, and the most intense excitement prevails in that section of the county.

G. G. Blodget, Esq., has been sent down as a messenger to the Governor, to communicate the condition of things, and the fears of the people, and to ask for aid from the State authorities.

It seems that a short time since, word was sent to Mr. Harris, a gentleman very much liked by the Indians, and who possesses much influence among them, informing him he had better leave town within three days, for that the Indians owned the whole country around to within three miles of Sutter's Fort, and that they intended to sack the towns and burn them.

A gentleman by the name of Rosencranz, with eight others, went out a day or two since on the Macosumnes for the purpose of prospecting; and as R. and one other were returning to where their dinner was cooking, the leader of the Indians, armed with a gun and bow and arrows, came up, followed almost immediately by a second Indian, and in broken English demanded their arms. Rosencranz and his companion, instead of giving them up, sprang for them, and almost immediately two or three hundred armed Indians came out from their coverts. The two men ran for their lives, and succeeded, it seems, in making their escape. The other seven have not been heard from.

Three men have been found near Weaverville, horribly mangled, and the remains of two others, who, from the buttons, &c., that were found near, were supposed to be Americans. The bodies of the last two had been recently burned; the bones were charred.

The Indians are said to be aided by foreigners—to have sent their families into the mountains, and to be scattered principally from the Carson valley along the route over the summit as far as Ringgold, the outpost town. They are also said to be well mounted and armed.

Placerville, Ringgold and Weaverville have each a picked guard of 25 men. These towns have also raised a force of 50 men each, who are placed under the command of Sheriff Rogers.

While the meeting was going on at Placerville, two immigrants, a man and a woman, came into town, both of whom were wounded with arrows. They were enabled to escape with their lives on account of the Indians stopping to plunder their baggage. Another person came in about the same time, badly wounded in the arm with a ball.

The intelligence has been communicated to the Governor, and an order was to have been sent up early Friday morning to Sheriff Rogers to take the responsibility and keep the Indians at bay on the trail open until he receives further orders.

THE CHOLERA.—A gentleman whose practice has called him to various cholera patients in Sacramento, informs the Times that he has not seen or heard of a single case where the patient had not been suffering from the diarrhoea for several days prior to the attack.

THE MURDER TRIALS.—The squatters on trial before Judge Hopkins, at Sacramento, for murder, have moved for a change of venue. The motion was taken under advisement by the Court.

BEAR MEAT.—The Sacramento papers say that bear meat is plenty in that city. Where is our bear killer?

AUCTION SALES THIS DAY.—Wm. J. Sherwood will sell at 11 o'clock this morning, the cargo of ship "Amity Hall." See advertisement.

...the past six months. In our attendance at the most of these churches, we have always found our time well repaid. We have listened with much interest and profit to the sermons of Rev. Dr. Boring, of the Methodist Episcopal Church, which worships every Sabbath, in the District Court Room. Dr. B., to an intimate knowledge of the sacred Scriptures, appears to join a profound and practical acquaintance with the human heart. And without this last, we hold it that all preaching is in vain. A man can say nothing instructive to us unless he bring it like "new treasure" out of the divine oracles, which few young speakers can do; or like "old" out of the depths with which his own experimental acquaintance with life alone can furnish him; and this is altogether beyond the reach of a novice to do. Give us both united, and the words of him whom who possesses them, like the words of wisdom, are "sweet" to the soul,—yea, sweeter than honey and the honey-comb."

THE VOLUNTEER'S VISIT.—The Common Council of Sacramento held a special meeting on Wednesday evening, for the purpose of considering the bills presented for the expenses of the California Guards on their visit to Sacramento city. A committee from the Guards were in attendance, and presented a statement showing the actual expense incurred by them, and exposing as a fraud, the excess which has been demanded of the city by the liquor dealers and hotel keepers. The official statement made by the Guards vindicate the gentlemanly officers and members of that corps from the insinuations which have been thrown out by members of the Sacramento Common Council. After a liberal and even excessive allowance of drinks per man, the entire bill only foots up at \$1,541 and the probability is, that it was under rather than over this amount. We are glad that the Sacramento City Council manifest a disposition to do justice to the patriotism and good feeling which prompted the action of the Guards on the occasion referred to.

CALIFORNIA PRESSES.—We yesterday called to see the first printing presses of any size manufactured in California. They were made by Mr. Wm. Dunn, corner of Ohio and Pacific streets, one of the most finished and experienced mechanics in the State. The presses contain the latest improvements, and work with surprising ease and facility. They are now ready for sale, and are every way desirable for printing business.

This is a new feature in California mechanism. The manufacture of printing presses has hitherto been confined to the larger cities of the Atlantic States, and scarcely any others are in use throughout the entire Union. It remained for California to break ground in this important and useful branch of mechanism.

MOVING THE RANCH.—Yesterday was a busy day on the plaza. The Street Commissioner went about offering lumber, wagons, apple stands and every thing else that came in his way, for sale at public auction, in accordance with his notice, and the owners finding him in downright earnest about the business, made haste to remove their rubbish with as little delay as possible. One more such effort and the plaza will be cleared. But for this preparatory proceeding, there would hardly have been room for the speaker alone on Tuesday next, to say nothing of the thousands who will congregate to listen to him.

ROBBERY.—Some rascal entered the premises of Mrs. Priscilla Carwell, in Sacramento, on Tuesday night last, and stole a trunk, marked "S. A., Cal.", in white paint, containing upwards of \$5,000 in dust, American coin and doubloons, and a few specimens, together with a bracelet, (Old Fellows link, and marked in the links "J. W. W. S. A.") one gold locket, chains and earrings, and a quantity of female wearing apparel. A reward of \$1,000 is offered for the recovery of the property.

JUDGMENT AFFIRMED.—A few days since, in a suit at Sacramento, a judgment was rendered in a suit for baggage, which had been stored, and which was sold to pay storage. The defendants appealed, but the judgment was affirmed by the higher Court. This decision is of importance, as settling the rights of individuals leaving baggage in store.

BORING FOR RATS.—The Times intimates that a "grave and reverend Senator" from this city, and another from the San Joaquin, were seen in Sacramento a few evenings since, delightedly angling for rats!

HAD HIS POCKET PICKED.—Mr. D. Murray, of Sacramento, had his pocket picked of \$300, in that city, on Wednesday, while attending the horse market.

...and that the agents Mail Steam Company, to our worthy County Treasurer the authorship of the paragraphs in the News, touching the seizure and advertised sale of the steamer Panama. We are happy to be able to say, if any should happen to have a different opinion, that the editors of this paper are in the habit of writing their own sentiments, and not drawing upon their friends for editorial aid.

We have no feelings toward the agents of the Pacific Mail Line other than those of respect; but when the question is presented to us of sustaining the laws of the State, we shall insist upon their due execution, as well upon the wealthy and powerful, as upon the poor culprit without a shilling; and indeed, if anything, the more strenuous in the former case. We trust Mr. Endicott will not therefore be held responsible for the course the Pacific News chooses to take on any matter, for he has as much as he can attend to in the fulfillment of his appropriate duties; and that he does the latter faithfully, "without fear or favor," we do most fully believe, and award credit therefore.

CITY FINANCES.—From the report made to the Common Council last evening, by Ald. Wilson, chairman of the Finance Committee, it appears that the amount of scrip issued, and receivable for taxes is \$445,240 22, of which \$327,860 72 have been returned to the City Treasury, leaving \$117,359 50 still outstanding. A re-issue of scrip has been made of \$20,000, which is not receivable for taxes, making the whole outstanding balance \$137,359 50. We do not look upon this last issue in any other light than as the most miserable fraud upon the public creditor. If the city refuses to take its own paper in payment of debts due, certainly it possesses a good deal of "cheek" to expect other people to touch the stuff. We believe, however, that the city can be compelled to receive its "promises to pay" from any person indebted for tax or license.

ARRIVAL OF THE ANTELOPE.—This steamer, belonging to Law's Line, came into our port last evening, for the first time. Her arrival was announced to us at an early hour by Miller & Co.'s Express, who appear determined not to be outdone by older Expresses in the delivery of early intelligence. The Antelope brings up 34 passengers, but no later intelligence. Her day of sailing for Panama is not yet announced, but she will probably be dispatched about the 5th of November. She is a new vessel, admirably fitted up for the comfort of passengers, and like all of this line, officered by gentlemen who understand their business.

NUISANCES.—We perceive that the authorities are imposing fines upon some of our hotel and restaurant keepers for creating nuisances, by throwing offal into the streets and back yards. This is right. There is a stench around the kitchens of some of these places, that is perfectly insufferable, and furnishes more cholera food than all other nuisances combined. We trust the proper officers will be vigilant in presenting such places to the notice of the Recorder, whose usual promptness will cause their immediate cleansing, or inflict the consequences.

MELANCHOLY ACCIDENT.—We learn from a friend of a melancholy accident on board the schooner Iowa, on Thursday. The mate of the vessel, Mr. Whitman Wilbur, of Connecticut, was engaged in loading a gun, when the cap exploded, the entire charge passing through his body, killing him instantly. He was twenty-nine years of age, and was highly esteemed.

CORONER'S INQUEST.—The coroner of Sacramento held an inquest on the body of David B. McCune, of Jefferson county, Wisconsin, and rendered a verdict that he came to his death from cholera, brought on by exposure in sleeping out in the night air.

The Rhode Island Legislature adjourned without acting on the bill to restore to Governor Dorr his civil rights.

FIRE IN SAN JOSE.

Correspondence of the Pacific News.

SAN JOSE, Oct. 24.

Our usually quiet city was startled this evening, about eight o'clock, by the cry of fire, which was found to proceed from a wooden building on Market street, north of Santa Clara, and owing to the entire absence of anything like a fire organization, or of any apparatus, even as much as a bucket or hook, in a short time some seven or eight buildings, mostly wooden, were consumed, causing a loss of about \$15,000. I regret to state that by an explosion of gunpowder in one of the buildings, four or five individuals were considerably injured, among them Mr. Brierly, the candidate for Superintendent of Public Instruction, who was assisting to extinguish the flames. It is to be hoped that the authorities of the city will immediately provide a suitable engine, as the combustible buildings of which the town is mostly built, invite a serious conflagration. Q.

GREGORY'S EXPRESS.—The N. Y. Universe says:—A reliable express is always the safest and most prompt manner of sending packages. This is especially the case with regard to California, and Gregory's Express supplies this want. This express can be relied on in all cases, as the proprietors are perfectly responsible. The writer of this, when in California, witnessed the energy and enterprise of Mr. Gregory, and has no hesitation in saying that he would prefer sending packages by his express to sending through the mails. Mr. Gregory was the first man who opened a direct communication between San Francisco and the mines, extending to Stockton, Sacramento, Marysville, and every part of California. We are glad to be able to state that the business of this Express is yielding its enterprising proprietors a handsome revenue. They deserve it!

MURDER.—We learn from Mr. Ford, who has just returned from Butte Creek, that on Wednesday last, there was a man murdered by Indians, on the West branch of Feather river, near Kellen's old trading post.

There were two brothers occupying a tent; one of them was sick, and the other out at work; they killed the latter by striking him on the head with some heavy instrument. The next morning a party of about twenty men went in pursuit of the Indians. They found them about two or three miles from the Post, in a canyon, and killed seven or eight Indians, including two or three squaws, and also wounded several others. While the party were out in pursuit, an Indian went up to the camp where there were some sick men, and shot one of them in the breast with an arrow. Some of the miners are becoming alarmed, and are leaving Butte Creek, and the neighborhood of the murder. (Marysville Herald.)

THE CHOLERA—its Progress.—Five or six cases only have been reported since our last issue. This indicates no increase and encourages the hope that with the thorough precautionary measures now on foot, and the timely attention of everybody to the recommendations as to cleanliness, clothing and diet, the malady may not assume an epidemic character. We heard of but three deaths yesterday, and they, as well as all previous ones, occurred in cases of neglected diarrhoea, or under circumstances which rendered the victim peculiarly liable to an attack. The Hospital provided for the cure of patients at the city charge, is a most convenient and suitable building near the corner of L and Second streets, where it is desired that all the unprovided sick may be removed as early as possible. Let no one be neglected. (Times, Thursday.)

REPORT OF DEATHS, in the City Hospital, from October 12th to the 25th, inclusive:

Oct. 12th, Geo. Stuck, of Ohio, of dysentery, aged 26; Oct. 13th, J. A. Metcalf, Ohio, dysentery; 24; Oct. 14th, Fred. Smith, dysentery; 14th, E. V. Wyatt, N. Orleans, dysentery; 35; 15th, Charles J. Hilbrun, Mass., dysentery; 23; 17th, Thos. Pierce, typhus fever; 17th, Wm. W. Quails, Va., dysentery; 22; 19th, John Taylor, Ill. dys. 33; 19th, Jose Bochen, Hungary, dys. 31; 20th, Mexican child, dys. 8; 23d, Fred O'Riley, La., dys. 19; 24th, Thos. Rolan, Eng. cholera; 25th, T. O. French, U. S. cholera.

BALL FIXINGS.—While every body is preparing for the grand ball, on Tuesday evening next, the beautiful assortment of gloves and other articles of Messrs. Kelsey, Smith & Rile, in Clay street, just above Montgomery, should not be overlooked. They are "up and dressed" for every thing, whether it be "expressing" families from the States, or putting on the finishing decorations after their arrival.

Mrs. Parlington says, nothing displeases her so much as to see people who profess to expect salvation, go to church without their purses, when a recollection is to be taken.

SACRILEGIOUS.—Miss Church was robbed of \$5000 in Sacramento city yesterday. Just like 'em up thar.

A BIG GOLD STORY.—Our friend Taylor, of the Marysville Herald, is responsible for the last large gold story, as follows:

Gold.—We understand that the Jersey Company, working on the North Fork of Yuba river, are gathering from their claim an average of fifty pounds of gold per day.

We venture the opinion that the "North Fork of the Yuba river" has by this time received a greater accession to its gold seekers than there are grains of gold in one "fifty pounds," at least!

ces of the men, which might be added to. Napoleon amid the raving of a whirlwind. His last words were, 'Tete d'armee.'

Saladin, in his last illness, instead of his usual standard, ordered his shroud to be uplifted in front of his tent; and the herald who displayed his winding sheet as a flag was commanded to exclaim aloud, 'Behold! this is all which Saladin, the Vanquisher of the East, carries away of all his conquests.'

The last words of Sir Walter Scott to Lockhart were, 'Be a good man, for if you do not, you will feel it when you come here.'

The dying Wolf, hearing of the flight of the French, exclaimed 'I die contented.'

The curate of St. Sulpice asked the expiring Montecucchi. 'Sir, are you truly conscious of the greatness of God?' 'Yes,' was the answer of the departing philosopher, 'and the littleness of man.'

The heroic Lawrence, perishing amid the thunders of the engagement between the ill-fated Chesapeake and the British frigate Shannon, exclaimed 'Don't give up the ship.'

Sir Richard Grenville having fought his single ship against a large fleet, until his vessel was overwhelmed by the fearful odds and himself mortally wounded, summoned his victors to bear testimony to his good conduct, and exclaimed, 'Here die I, Richard Grenville, with a joyous and quiet mind, for I have ended my life as a true soldier ought to do, fighting for his country, Queen, religion, and honor.'

When the Marquis of Montrose was taken and condemned to die, and his head and limbs to be severed and hanged in public places in different towns, 'I wish,' he exclaimed, 'I had flesh enough to be sent to every city in Christendom, as a testimony to the cause for which I suffer.'

Sir Henry Vane, when condemned to die, exclaimed, 'Ten thousand deaths to me, ere I will stain the purity of my conscience.'

'Is there anything on earth I can do you?' said Taylor to the satirical buffoon, Dr. Wolcott. 'Give me back my youth,' was the sad reply.

'Oh, that I might live!' was the dying wish of the patriot Quincy, as he came in sight of Massachusetts, 'Oh, that I might live to render to my country one last service!'

The last words of Gen. Harrison were, as though he fancied himself addressing some official associate in the government, 'Sir, I wish you to understand the true principle of the government. I wish them carried out. I ask no more.'

'I have always done my duty. I am ready to die. My only regret is for the friends I leave behind me.' These were the sublime words, indicating a mind conscious of rectitude, a spirit ignorant of fear and a heart full of affection, with which the great and good Taylor was gathered to his fathers.

GALPHINIZING IN FRANCE.

A claim of the Napoleon family against France for about fifty millions is to be prosecuted before the tribunals. When the people took the helm of government in 1792, the government property passed from the Bourbon family to the State. At the fall of Napoleon the imperial property shared the same fate. The Bourbons were installed in their properties, and the Palais Royal, which, rebaptized Palais National, had been forfeited on the death of Philippe Egalite, was restored to the younger branch. The Republic is the first to give the example of permitting former monarchs to retain all the property acquired by virtue of their former office.

Louis Philippe was owner of extensive domains in France, paid for in one way and another, out of the public moneys—beyond the property of the family of Orleans. The dowry of the Duchess of Orleans is acknowledged as one of the debts of the Republic. The two magnificent galleries of paintings in the Louvre, the Spanish and Standish galleries, have been surrendered to Louis Philippe as his private property.

walking heart along Queen street, or that city, stopped at the door of a pastry-cook's shop, and addressing his lady-love, said—

'Now, my dear, what will you take?'

She, expecting to be treated to some of the good things of the shop, modestly replied,

'I will take any thing you like.'

'Then,' said he, 'we will take a walk,' and marched past the shop.

Not long since, two men met in Cincinnati, and the following colloquy took place:

'Smith, how was the cholera report yesterday?'

'Oh, falling off; only ten deaths.'

'Then split me if I don't go green corn and cucumbers for dinner—and, Smith, how's the report for to-day?'

'Only five deaths.'

'J-e-r-u-s-a-l-e-m! only five! I'll go a dozen peaches, some radishes, and a bustin' great watermelon to boot! Cuss me if I go without green sass any longer!'

A Norfolk farmer, not accustomed to literary composition or letter writing, having lost a new hat at a country meeting, and inquired into its possible mistaking, addressed the following grammatical note to its possessor:

'Mr. A. presents compliments to Mr. B. I have got a hat which is not his. If he have got a hat which is not yours, no doubt they are the missing one.'

Across grained, antiquated maiden vixen went to a physician for advice.

'Madam,' said the doctor, 'it seems to me that it would do you good to have a little sun and air.'

'Oh, you abominable critter! a son and heir! Oh, dear, will somebody fan me! I will go off! The outrageous brute!—a son and heir!'

A Sale in Church.—A parson, in the course of his sermon, recently asked,

'What is the price of earthly pleasure?'

'Seven-an'-sixpence a dozen,' said a half-asleep grocer, who was somewhat startled by the question.

'Well, I'll take the lot,' muttered a speculator, who was anything but wide-awake when he made the offer.

A son of the 'Emerald' but recently over, stated that the times were so hard in certain districts where he came from, that people did not eat at all.

'How do they live, then?' inquired a listener.

'On the remembrance of what they ate last year,' was the reply.

WHITNEY'S PACIFIC RAILROAD.

It is amusing to compare the various objections that have at different times, or by different persons at the same time, been urged against this scheme of Mr. Whitney's. Some have said that the road could never be built on account of the expense; the unsettled state of the country over which it must pass, exposing it to the depredations of Indians, &c., while others are lifting up their hands in horror at the immense fortune which Mr. Whitney will make after finishing the road! The fact is, both go to extremes. The idea is advanced that Mr. Whitney, in asking to purchase the strip of land sixty miles wide, or thirty miles on each side of the proposed road, at the price of ten cents per acre, asks too much! But the Committee of Congress, who made a careful examination of the whole subject, reported that this sum (which would amount to \$7,795,200) was "above the present value, and far beyond what the government can in any other way expect to receive. It is then evident that on Mr. Whitney's plan, no aid from government is asked. They are not requested, as on another plan, recently projected, to loan the credit of the United States to an amount of nearly \$100,000,000; no such thing. Mr. Whitney proposes to buy this strip of land, pay all that it is now worth for it, and by means of the improvement he will make upon it, to increase its value so as to make it recompense him for the improvement. [Horn's Railroad Journal.]

Over one hundred thousand dollars.

A good and clear title, from all incumbrance, will be given for the lands and buildings occupied as the St. Francis Hotel, and full possession given of the hotel, as soon after the decision as the deed can be completed. Conveyances of the out-lots, according to their numbers, as well as the one hundred acres of land adjoining them, given without any extra charge to shareholders for deeds.

Those who wish to learn what the profits of the Company have been, and what they are comparatively certain to be hereafter, may judge from an examination of their books, or a statement in the hands of the Agents for the sale of the shares, taken from the books.

The rapid improvement and growth of San Francisco, with the active business of the St. Francis Hotel, render it one of the most certain investments for an immediate return of profits, as well as prospective large accumulation of property of any in the country. At the same time each shareholder secures to himself two lots, free from city taxes and assessments, handsomely situated for a residence and gardening purposes, worth, in the progress of improvement, much more than the original amount paid for his share.

THE PEOPLE OF THE STATE

of California, District of the County of Santa Clara: Jose De Arnez vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geofrey. Petition to foreclose mortgage, &c. &c.

Whereas, JOSE DE ARNEZ filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnez, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioner's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.

Given under my hand and private seal, there being no seal of of L. S. file yet provided at this office, this 21th day of May, A. D. 1850.

THE JUBILEE.

To-morrow will be a gala day with our citizens, for the proper celebration of which the busy "notes of preparation" have been heard for a week past. Business will be suspended in order that the whole population may participate in the general joy that pervades all hearts on an even of so much importance to California as her admission into the sisterhood of States.

Since the receipt of the gratifying intelligence of the action of Congress, there has prevailed among us a buoyant and jubilant feeling, which is not only an earnest of the attachment which Americans have for the Union which has made us great, powerful, prosperous and happy, but has had a most beneficial effect upon every department of business. Confidence, which is the basis of all commercial transactions, pervades and animates every bosom,—public credit is strengthened, and all looks bright for the future of our young and vigorous State.

We have not room for the expression of the joyous feelings which animate our heart on this occasion, not is there need that we should do so. We trust that no sentiment of pride or rivalry, will be suffered to mar the harmony of the day, but that all will take the places assigned them with cheerfulness. That many things have been improperly done by those who have assumed the direction of the celebration, is unfortunately too true; and this will always be the case when cliques, and men ambitious to be leaders on every public occasion, are permitted to thrust themselves into positions they are totally unfitted to fill. But let us waive all objections to the mismanagement that may have taken place, and forget in the gloriousness of the event, every feeling of dissatisfaction. A refusal now, to take a place in the column, on a question of precedence, will only mar the Festival, which we are sure no one wishes to do. We hope all will come out and aid in making the day one long to be remembered in our history.

PLANK ROAD TO THE MISSION.—The resolution granting to Mr. Chas. L. Wilson the right to construct a plank road to the Mission, which passed the Board of Aldermen on Friday evening was laid on the table in the Board of Assistants. The importance of this improvement cannot be overrated, but we very much question whether the city ought not to do it. We are opposed to monopolies, and the project of Mr. Wilson of collecting an enormous toll upon the road for seven years, cannot be seriously entertained. Still, let us have the road. If the Council will not authorize its construction at the public expense, let them allow some one else who will do it on the best terms, to undertake it. We protest against this method of "laying on the table" a plan which proposes to be of so great public utility.

THE MUSICIANS.—Some people appear disposed to consider the refusal of the musicians to render their services on Tuesday without a fair compensation as a "shameful outrage." For our part we think they are perfectly right in the course they have taken; for if it is true, as we have no doubt, that they are still unpaid for services on the occasion of the Taylor funeral, they are wise in requiring pay in advance. We have suffered in a similar way by trusting to political promises, and we don't blame these musical gentlemen for declining to put their faith in the City Fathers.

THE ORDER OF UNITED AMERICANS is the name of an Association of which we learn a chapter has been established here. They will appear in the procession to-morrow. Their regalia, composed of brilliant stars and stripes, in imitation of our flag, is extremely pleasing, and we have no doubt they will make a fine display.

A PROPOSED ABATEMENT.

The good sense and honesty of the Common Council, have recently been strongly appealed to, in order to abate the tax on Messrs. Heurlin & Belcher under the following circumstances: Petitioners state that they are worth \$20,000, for which sum in cash, they were assessed and taxed. That shortly thereafter they chose to buy with their money \$20,000 worth of real estate. This, too, had been taxed for the sum of \$20,000, consequently they are called upon to pay a tax on \$40,000 worth of property; which most unrighteous exaction they pray the city fathers to abate. We are glad to be able to state that there was sufficient acumen in the Council to resolve this Gordian knot, without cutting it. And we will venture to say that no American jury, to which the aggrieved gentlemen vow they will appeal, will ever give them a verdict in a case so plain as this.

The worst part remains to be told. Assessor Bennett actually signed for Messrs Heurlin & Belcher, a document, in which he states that they are unjustly taxed by him to twice the value of their property, leaving, forsooth, \$20,000 of property in the city to pay no tax. When any of our citizens wish to devise ways and means to dispose of property to each other so as to avoid taxes, we refer them to Mr. Bennett. By a lucky hit he might suggest to them to exchange all—balance—tous—with each other, and thus all taxes might be avoided. For the benefit of foreigners, we may as well state that property, not men, is taxed, and property always pays its tax.

CHANDELIERS.—We have seen at the store of Messrs. Ebbets & Co., head of California street wharf, some superb chandeliers of large size and elegant patterns, that would make most admirable ornaments for some of the large halls for which our city is becoming noted. A pair of the largest have eight burners, with beautiful cut and frosted shades, the handsomest undoubtedly that have ever been brought into the country. We were surprised to learn that these brittle wares were brought over the Isthmus, some of them leaving New York as late as September.

For the lighting up of the ball-room on Tuesday night, these chandeliers would be just the thing, and give a magnificent effect to the galaxy of beauty that will be there. We hope a few hundred dollars will not prevent the fitting up of the room on a liberal scale, so that it may be a matter of pride that the Admission Festival lacked nothing for its appropriate celebration. See the advertisement in to-day's paper.

"A SOUTHERLY WIND and a cloudy sky proclaims" now almost daily, the conflict of seasons which draws near. Once in twenty-four hours the south wind—*Austen fertilis imbribus*—appears and arrays his forces on the border and threatens to invade the domain so long held by Boreas. Thus far the contest is unequal, and the north-west wind for the most part holds possession of the field; or rather it is a drawn battle, both parties retire and leave us to enjoy a calm. This cannot last long, and we are daily expecting the shafts of the victorious king of the south, which will fall thick and fast upon us until his sway shall be triumphant.

IMPROVEMENTS.—We have spoken often of the various and rapid changes for the better which are going on in our city. In the vicinity, the spirit of improvement is scarcely less. At the Mission, as we have previously stated, and on the road to the Presidio, the new buildings, fences, and other signs of a prosperous and civilized condition of things, are particularly observable. The labor to accomplish this must be very considerable, but we have no doubt that it will eventually repay all expenditure.

DENTISTRY.—We believe there are few who have not had some feeling experience of that most unbearable of all aches, the tooth ache; and many are deterred from having operations performed through want of confidence in the profession, or a notion that the pain would be increased. In regard to the first point we can assure torture-racked sufferers that if they will call upon Dr. BLANKMAN, in Commercial street, they will not leave his room without being satisfied of his perfect skill and scientific requirements in dentistry, and also that he can fill or extract *un diente* with scarcely a particle of pain. We speak by the book, and can recommend him to all who need his aid.

AUCTION SALES THIS DAY.—Our neighbors, Jones, Carter & Co. will sell at 10 o'clock, Chili flour, brandy, champagne, lumber, &c.

James B. Huie will sell a large and general assortment of provisions, groceries, liquors, &c. worthy the attention of dealers.

Henry B. Fitch will sell at 10 o'clock, a pair of fine *caballos*, now in great demand for the procession to-morrow.

THE BALL.—We refer to another column for rules and regulations of the Ball to-morrow night.

YUBA RIVER MINES.

SICARD'S BAR.—Of all the rivers, it is likely that the Yuba has turned out the most gold for the past year. From the lowermost Bar twelve miles above Marysville, to the smallest affluent, one hundred miles further up, in the region of the fabulous "Gold Lake," beneath the foot of the loftiest peaks of the Snowy Mountains, gold has been found scattered with lavish profusion. At the upper forks the yield is coarse, and lies partly in the banks and partly in rich deposits in the bars. It is not however equally distributed. Many of the damming operations on the Yuba, as elsewhere, have proved failures.

Sicard's Bar is about eighteen miles above Marysville, and has proved by all odds the richest bar which has been found in the gold region. Here not only have the banks but the bed of the stream proved immensely productive. A single bucket full of dirt shovelled up without foresight, from the river's bed, has yielded a pound of gold. The gold is all in fine scales, and has evidently been driven to this locality by the action of currents and inundations in the lapse of departed ages.

The amount of labor expended by the company in turning the river, has been very great. Blasting and excavating for some distance through a rock of adamant, has cost a mine of wealth, all of which has been amply repaid; and the prospects of a further harvest are even better than what has already transpired. The company who hold possession of the richest part of this bar, will soon go into winter quarters, and await the event of another summer, to complete the operations they have begun. But meantime, we are informed that \$18,000 per share, has been refused, in several instances, no one wishing to sell.

These facts we gathered yesterday from an old friend, just from that locality, and who had no motive for disguising from us the facts, and who did not suppose they would be used by us for publication. We give them credit, furthermore, from personal and thorough acquaintance with that part of the mining district, and believe they are not exaggerated. The further fact, however, should by no means be disguised by us—to wit: that this good fortune is reserved for but few.

A vast population is still located upon the golden banks of the Yuba, from Lower Bar to the first Fork, very few of whom, after experiencing the hardest trials, will do much more than pay expenses. We purpose to describe, at some no distant day, mining life as it existed in that region from Aug. '49 to March '50, the eight months of our experience in the placers.

CHOLERA.—At the meeting of the Medical Society on Saturday evening thirteen new cases of cholera were reported, and seven deaths. The deaths occurred two in Happy Valley, two at Clark's Point, two in the city hospital, and one in the marine hospital. The society passed the evening in discussing the peculiar symptoms apparent in cholera patients, and adjourned to Thursday evening next.

As to the reported cases of cholera, we beg leave to differ in opinion from those who give credit to their actual occurrence. No one thought that the Kanakas on Bush street were dying with this disease until after the Montague came into the harbor. And every one who was in San Francisco last year at this time knows perfectly well that numerous cases alike in all perceptible respects to what is now called Asiatic cholera, then occurred with alarming frequency; and that, in fact, with one half the population which we now have, there was far more sickness and mortality.

THE CITY MARSHAL requests it to be stated, that if citizens will notify him of the existence of nuisances in any part of the city, the same shall be speedily removed. The Street Commissioner would do well to make a similar request, or to take a walk we were about to say, or clamber over some of the sidewalks in Montgomery street. They both will find something to do in Commercial street also.

N. B. The City Marshal may take a peep into the interior of the block bounded by Washington, Kearney, Montgomery and Jackson sts., and if he don't find causes for cholera in the rear of some restaurants, we don't know what propagates that dire disease. The stench, even at this season, is awful.

OUTRAGE.—On Friday night five men went on board the brig James Caskey, off Clark's Point, and demanded of the captain his money. The captain refusing, they beat him senseless, and until his wife, who feared they would kill her husband, delivered to the robbers the money, about \$900. A man who was on board at the time was made prisoner by the robbers. They were all masked, and otherwise disguised. In the melee a pistol, and a dark lantern were left behind, which it is to be hoped, may lead to an identification of the scoundrels concerned in it.

THE MERCEDES MINES.

We were much pleased recently by an unexpected visit from Mr. Solomon B. Brastow, who has been engaged, for four months past in mining at "Horse Shoe Bend," on the Mercedes river. He left off work at that place on Thursday of last week. Horse Shoe Bend is about 15 miles above the foot-hills.

Mr. B. states that up to some time July, in he worked in the banks and made some money. Out of this, and his profits in some shares sold out by the damming company with which he was afterwards associated, he paid expenses till he left. The dam itself which cost him most of his time and labor had proved an entire failure, or nearly so, owing probably not to the lack of gold in the bed of the river, but to the unexpected rains, and the lateness in completing their work.

And this, it strikes us, must always be the cause of failure in the turning of the rivers in the gold region. Unless men may assume to themselves the power of the Titans who piled "Ossa on Pelion," and hurled a mountain into the bed of the stream, so as completely to divert the channel into another course among the hills of the Sierra, we believe no effectual draining of the rivers can be made.

In one single instance, Mr. B. relates, a company of whalmen, perfectly "green" at mining, had struck a rich lead just above the dam at the Bend; and by a wing-dam were taking out \$100 to the man, daily. But this, he believed to be the only instance of like success on the river. As a general thing the Mercedes must be the "poorest river" in California. And such the miners have usually regarded it. Large numbers are leaving it, as a consequence, and are engaged in looking up claims in other localities. Some go to Agua Fria (we must protest against writing this Frio, as the miners pronounce it, and as merchants mark goods destined for it;) some to the Mariposa, Burnes's, Rattlesnake Creek, &c.

We were glad to see our young friend looking so well in health. He states that the miners generally are very healthy, and that some of the party who arrived in the country in April last, with him, have made several thousand dollars on the Feather River, and are bound for home. But with good health and spirits, such as he possesses, it is no loss to a young man to have come to California. Nor is it an excuse for his returning, that "father's rich and mother don't care." We are glad to see such energy and experience developed by the training one receives here, and feel sure it augurs well for the future, wherever he may be placed.

THE WEATHER.—Much time is undoubtedly spent in talking about health and the weather. We will not say foolishly spent, for we do not agree with those who are forever computing how much time we waste in yawning and sleeping, and laughing, inquiring for each other's health and welfare, and what the prospects of the weather are. Let those heed such croakers as will. Society will move on pretty much as heretofore, and good be accomplished by laughter and sociability, and by prognosticating the changes of temperature, rains, &c., from the "face of the sky," let writers of homilies and ethics say what they will. But we are becoming somewhat voluble ourselves. All we intended when we took up the pen, was to say that it looked very much like rain.

STOP THIEF.—We understand that it is a very difficult matter to keep inkstands, pens, candlesticks, &c. in the rooms occupied by the Boards of the Common Council. As all the several offices in the building are well supplied with these, we presume some poor hound from without who have not a *peao* to spare, help themselves to these useful implements out of the public crib. We would suggest that the sergeant-at-arms report such cases to Recorder Tilford.

FIRE COMPANY No. 5.—The Mayor and Chairmen of the Fire Committees in the Common Council, have finally decided to give to Knickerbocker Engine Co. No. 5, the new piano box engine.
